Weight	20g

Get Comfortable

Fit to your ear

The Symphonized NRG S headset comes with 6 interchangeable ear tips.The ear tips come in different sizes,two of which are equipped on the headset.Please choose the right size of ear tips and ear hooks to find the most secure and comfortable option for you (normally the medium ones are suitable for 75% of people).

Wearing the headset

1.Identify the right and left earpieces.
2.Insert the earbud into your ear.Adjust the ear hook direction and place it around ear lobe.
3.Adjust each earpiece until it fits flush in your ear and the earlip seals in the ear canal.
4.Tighten the sliding cable cinch to fix the earphones in place for the most secure fit.

Getting Started

Charging

The headset comes partially charged.Plesae make sure that you fully charge the headset before first use.

1.Connect the charging port with any USB charging adapter or active computer USB port.
2.Red LED indicator light shows headphones are Charging.
3.The headset is fully charged when LED indicator turns blue.

Note:

1.The LED indicator will flash red when battery is low,and you will hear a voice prompt "battery low". Please recharge the headset.
2.Charge the headset at least once every 3 months when not in use for a long time.

Pairing

To pair the Bluetooth headset with your device,you must first bring it into paring mode.

1.Please turn off other Bluetooth devices nearby,and make sure the headset and your Bluetooth device are close together (within 3 feet).
2.Starting with the headset turned off. Press and hold the multifunction button for approximately 7 seconds until the LED indicator flashes red and blue alternately with a voice prompt "pairing" (you will hear the voice prompt "power on" first,just keep holding the multifunction button).Now the headset is in pairing mode.
3.Activate the Bluetooth function on your device and search for the nearby Bluetooth connection:
For iPhone/iPad/iPod:Settings—Bluetooth—On
For Android:Setting—Wireless& Networks—Bluetooth—On--Scan for devices
For Windows Phone 8 devices:Settings—Bluetooth—On

4."Symphonized NRG S" Should be listed in the search result.Select the name to connect. Once connected,only the blue LED will blink slowly,and you will hear a voice prompt "connected"

Note:

1.The Symphonized NRG S headphones will directly enter pairing mode once powered on when used for the first time or after a factory reset.Otherwise,please follow the "pairing" instructions to enter pairing mode and pair with your device.
2.If a PIN code is required for pairing,please try "0000" or "8888" (4 zeros or 4 eights).
3. If you want to pair the headset with another device,you need to first turn off your headset,and then press and hold the multifunction button for 7 seconds.The LED indicator will then flash red and blue alternately.After that you can pair with your device by following the "Pairing" instructions.
4. The headset will stay in pairing mode for 5 minutes at most if no pairing device is found.Afterwards,it will power off automatically.
5.The Symphonized NRG S headset will switch to standby mode if pairing device is switched off or Bluetooth disconnected for 5 minutes.Afterwards,it will power off automatically.
6. Maximum operating range for the Bluetooth headset is 10m.If you move out of range,the headset will lose connection.You will need to move back to within range and reconnect to your Bluetooth audio device.

Re-pairing

The Symphonized NRG S Bluetooth headset can remember previously paired devices.If you have previously paired the headset with a device,simply turn on your device and the headset (by pressing the multifunction button for 3 seconds till the blue light is on) will automatically connect without going into pairing mode.

Reset

Symphonized NRG S can be reset by pressing the volume "+" "-" button at the same time for about 5 seconds until the LED indicator flashes red and blue simultaneously.

LED Indicator

The LED indicator gives a good indication of what the headset is doing.

LED Indicator	Status
LED indicator is solid red	Charging
LED indicator is solid blue	Fully charged
LED indicator flashes red	Low battery
LED indicator flashes red and blue alternately	In pairing mode
LED indicator flashes red and blue simultaneously	Factory reset
LED indicator flashes blue once every 7 seconds	Paired

Trouble Shooting

Q:Can I use the headset while it is charging ?
A:No,you cannot use the headset while it is charging.
Q:I have established connection with my smartphone,but I am not hearing any sound?
A:Please make sure that you turn up the volume of both devices.Some smartphone requires you to setup the Bluetooth headset as an audio output device before sound is transmitted.Please see the instruction of your smartphone for details.If you are using a music player or other Bluetooth device,please make sure it supports A2DP stereo music profile.
Q:The sound is not very clear/the caller cannot hear my voice clearly?
A:Please adjust the volume on your phone and headset.Make sure there is no source of interference nearby.Stay close to your smartphone.

Q:Why is the connection isnot stable and cuts out intermittently?
A:Please make sure there are no objects between the headset and your Bluetooth device.Please make sure there is no radio or WIFI interference nearby.
Q:My headset will not turn on?
A:Please recharge it and make sure it has enough battery power.If is fully charged and still nothing happens or if you are not able to charge the unit, please contact our customer support for warranty support.

Care and Maintenance

1.Keep the headset away from heat and humidity;
2.Do not put the product under direct sunlight or hot areas.High temperatures will shorten lifespan of the headset,battery and/or the internal circuit board;
3.Power off the headset when not in use and before storing;
4.Do not try to take the product apart;
5.Do not drop or knock your headset on hard surfaces;
6.Do not use chemicals or detergents to clean the product;

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1)this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
